## REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record which is the most pertinent art found, fails to teach and/or fairly suggest the instant composition. Sandiford (US Patent No. 4,069,869) is the closest prior art as it teaches a cement composition containing CMHEC having properties which overlap those which are instantly claimed, however it fails to teach the addition of a gas in order to foam the slurry. Accordingly since the instant claims now require a gas they are not taught or suggested by the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
